Join us in exploring ways how to broaden our collaborative-dialogic practices beyond traditional therapy rooms.

Join us in exploring ways how to broaden our collaborative-dialogic practices beyond traditional therapy rooms. Susan with her team offers therapy in a horse ranch, using horses as co-therapists. Pavel, together with recovery coaches, visits clients in their homes. We will share our stories but the main aim of the workshop will be to create space and opportunity for you to develop your own unique ways how, as collaborative-dialogic practitioners, you can help people in more natural settings.
