Houston Galveston Institute, Texas, USA

Join with HGI-ICCP faculty and students to share ideas and practices that have emerged over the years through our training program, and in our work-lives.

HGI has been hosting an ICCP program for many years, in various configurations. Please join us to learn about and participate in reflecting on the amazing work that has emerged in all of our different practice settings. Alumni, faculty current learners, colleagues from other ICCP programs, and interested learners are all welcome.
